

envilope

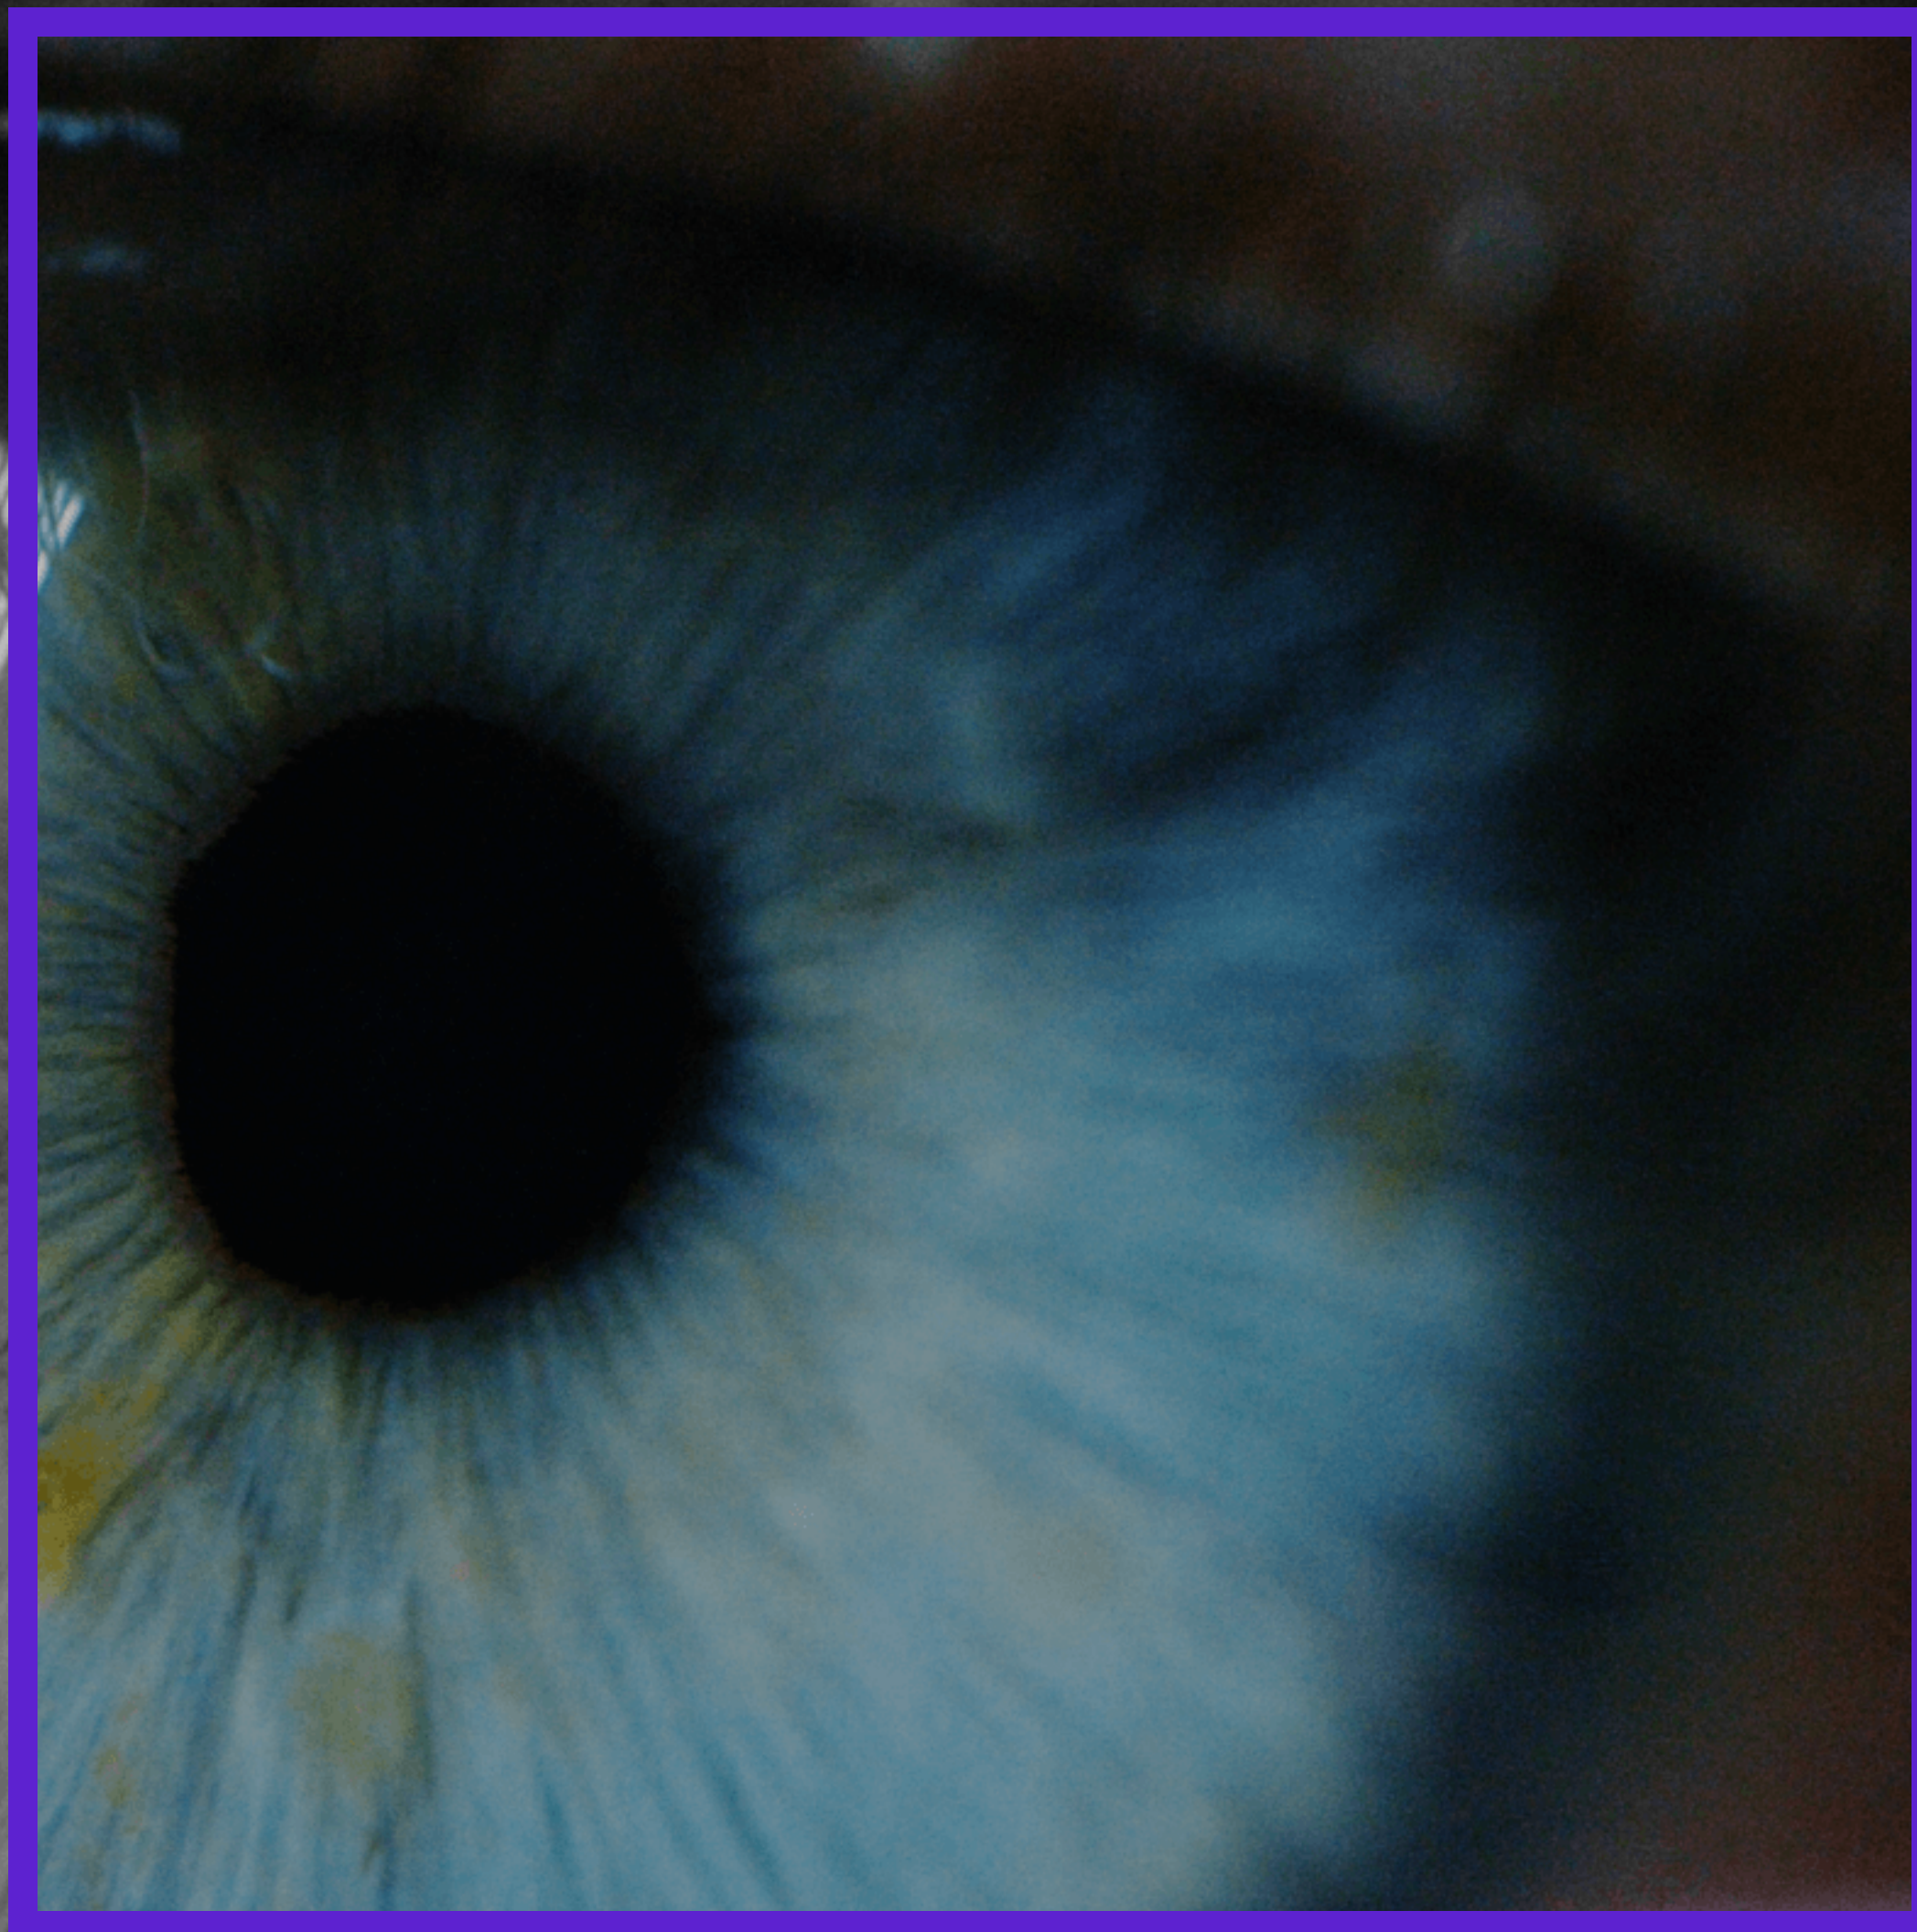

The World's First Blockchain Postal Service

They say **privacy** is a thing of the past.

We say it's the **future.**

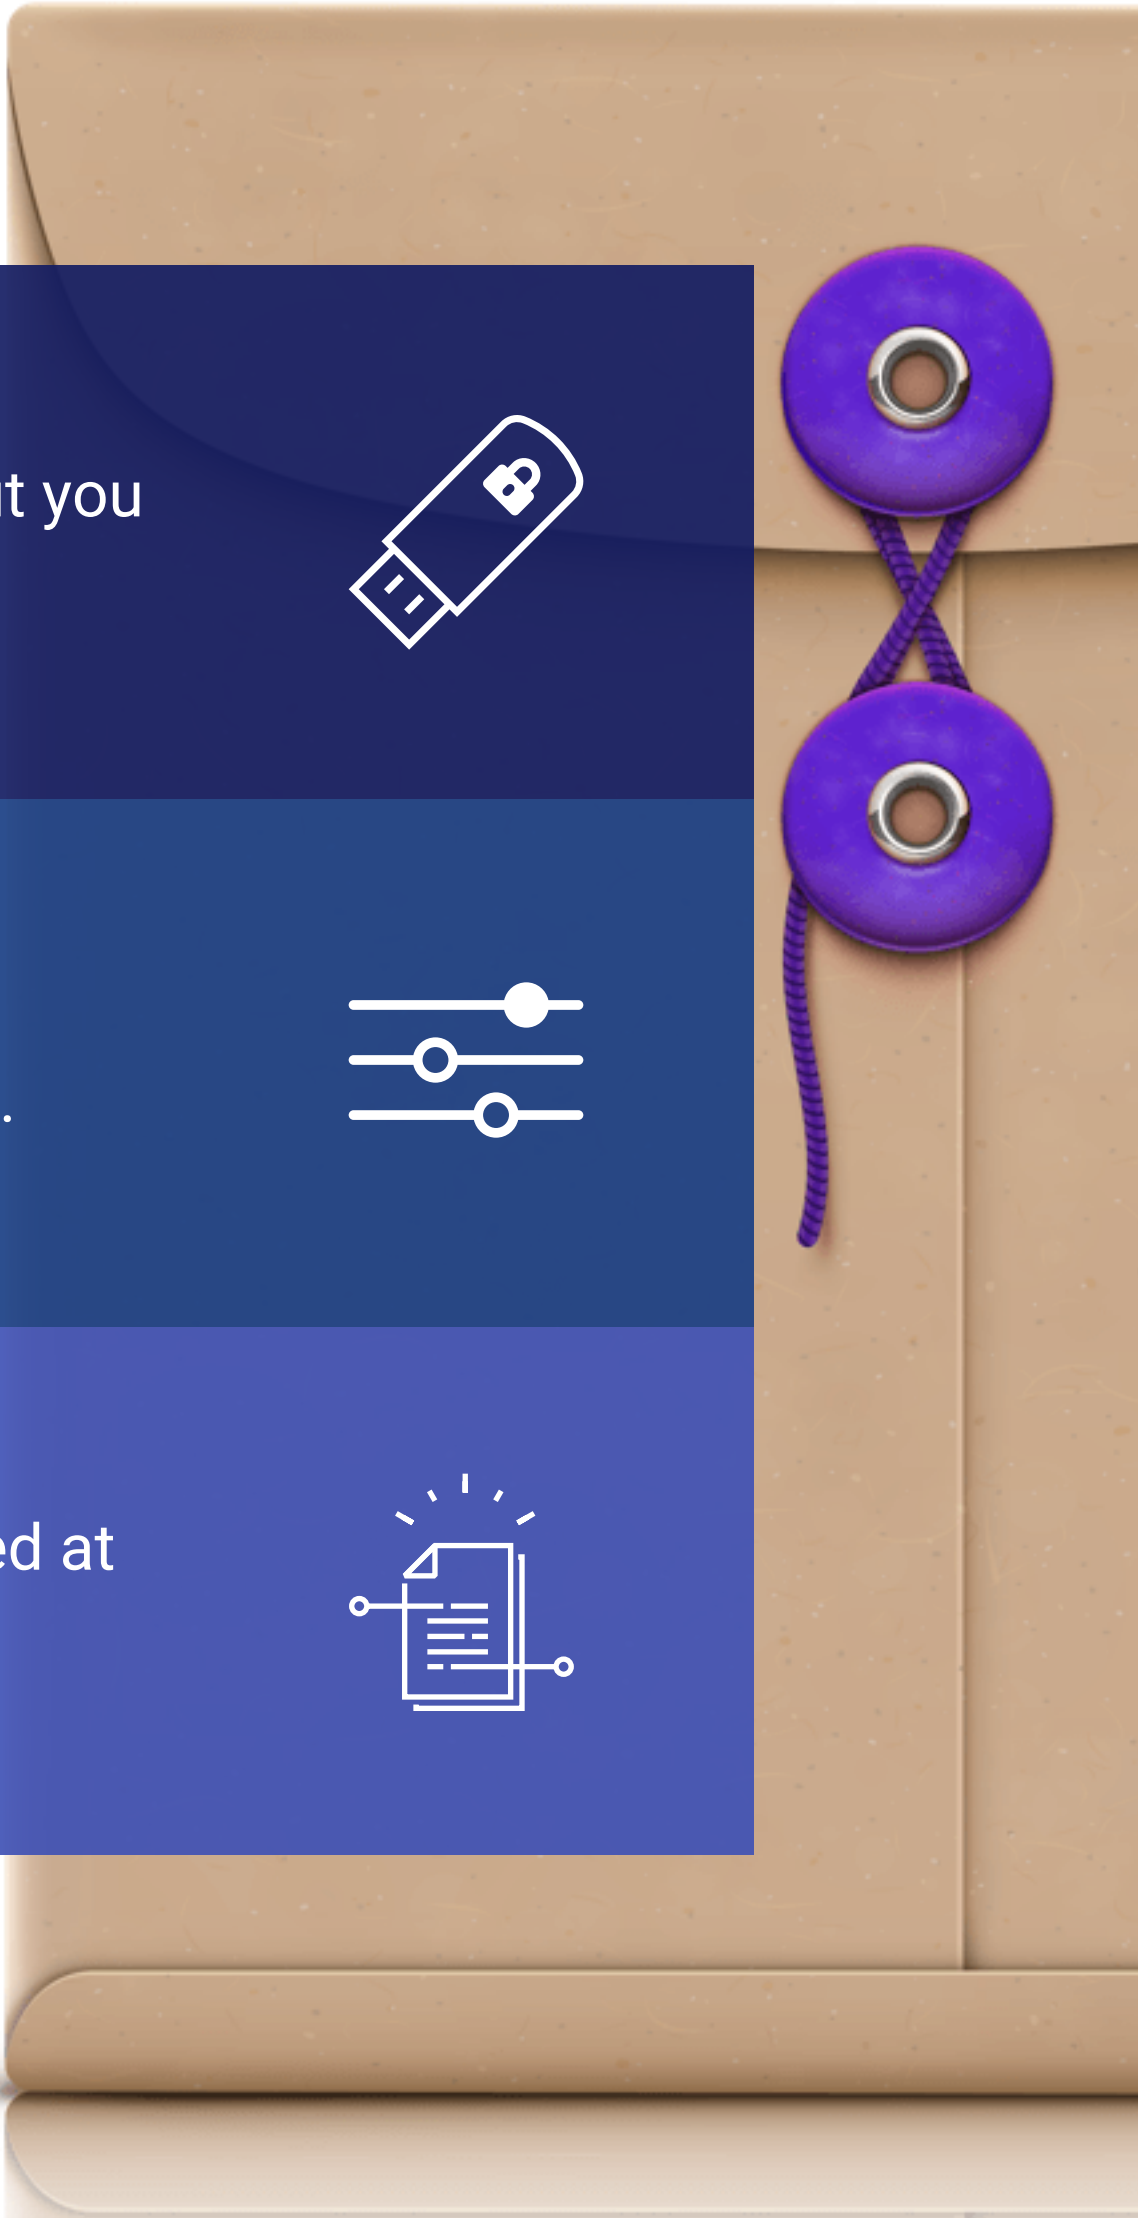

How would you like to be able to...

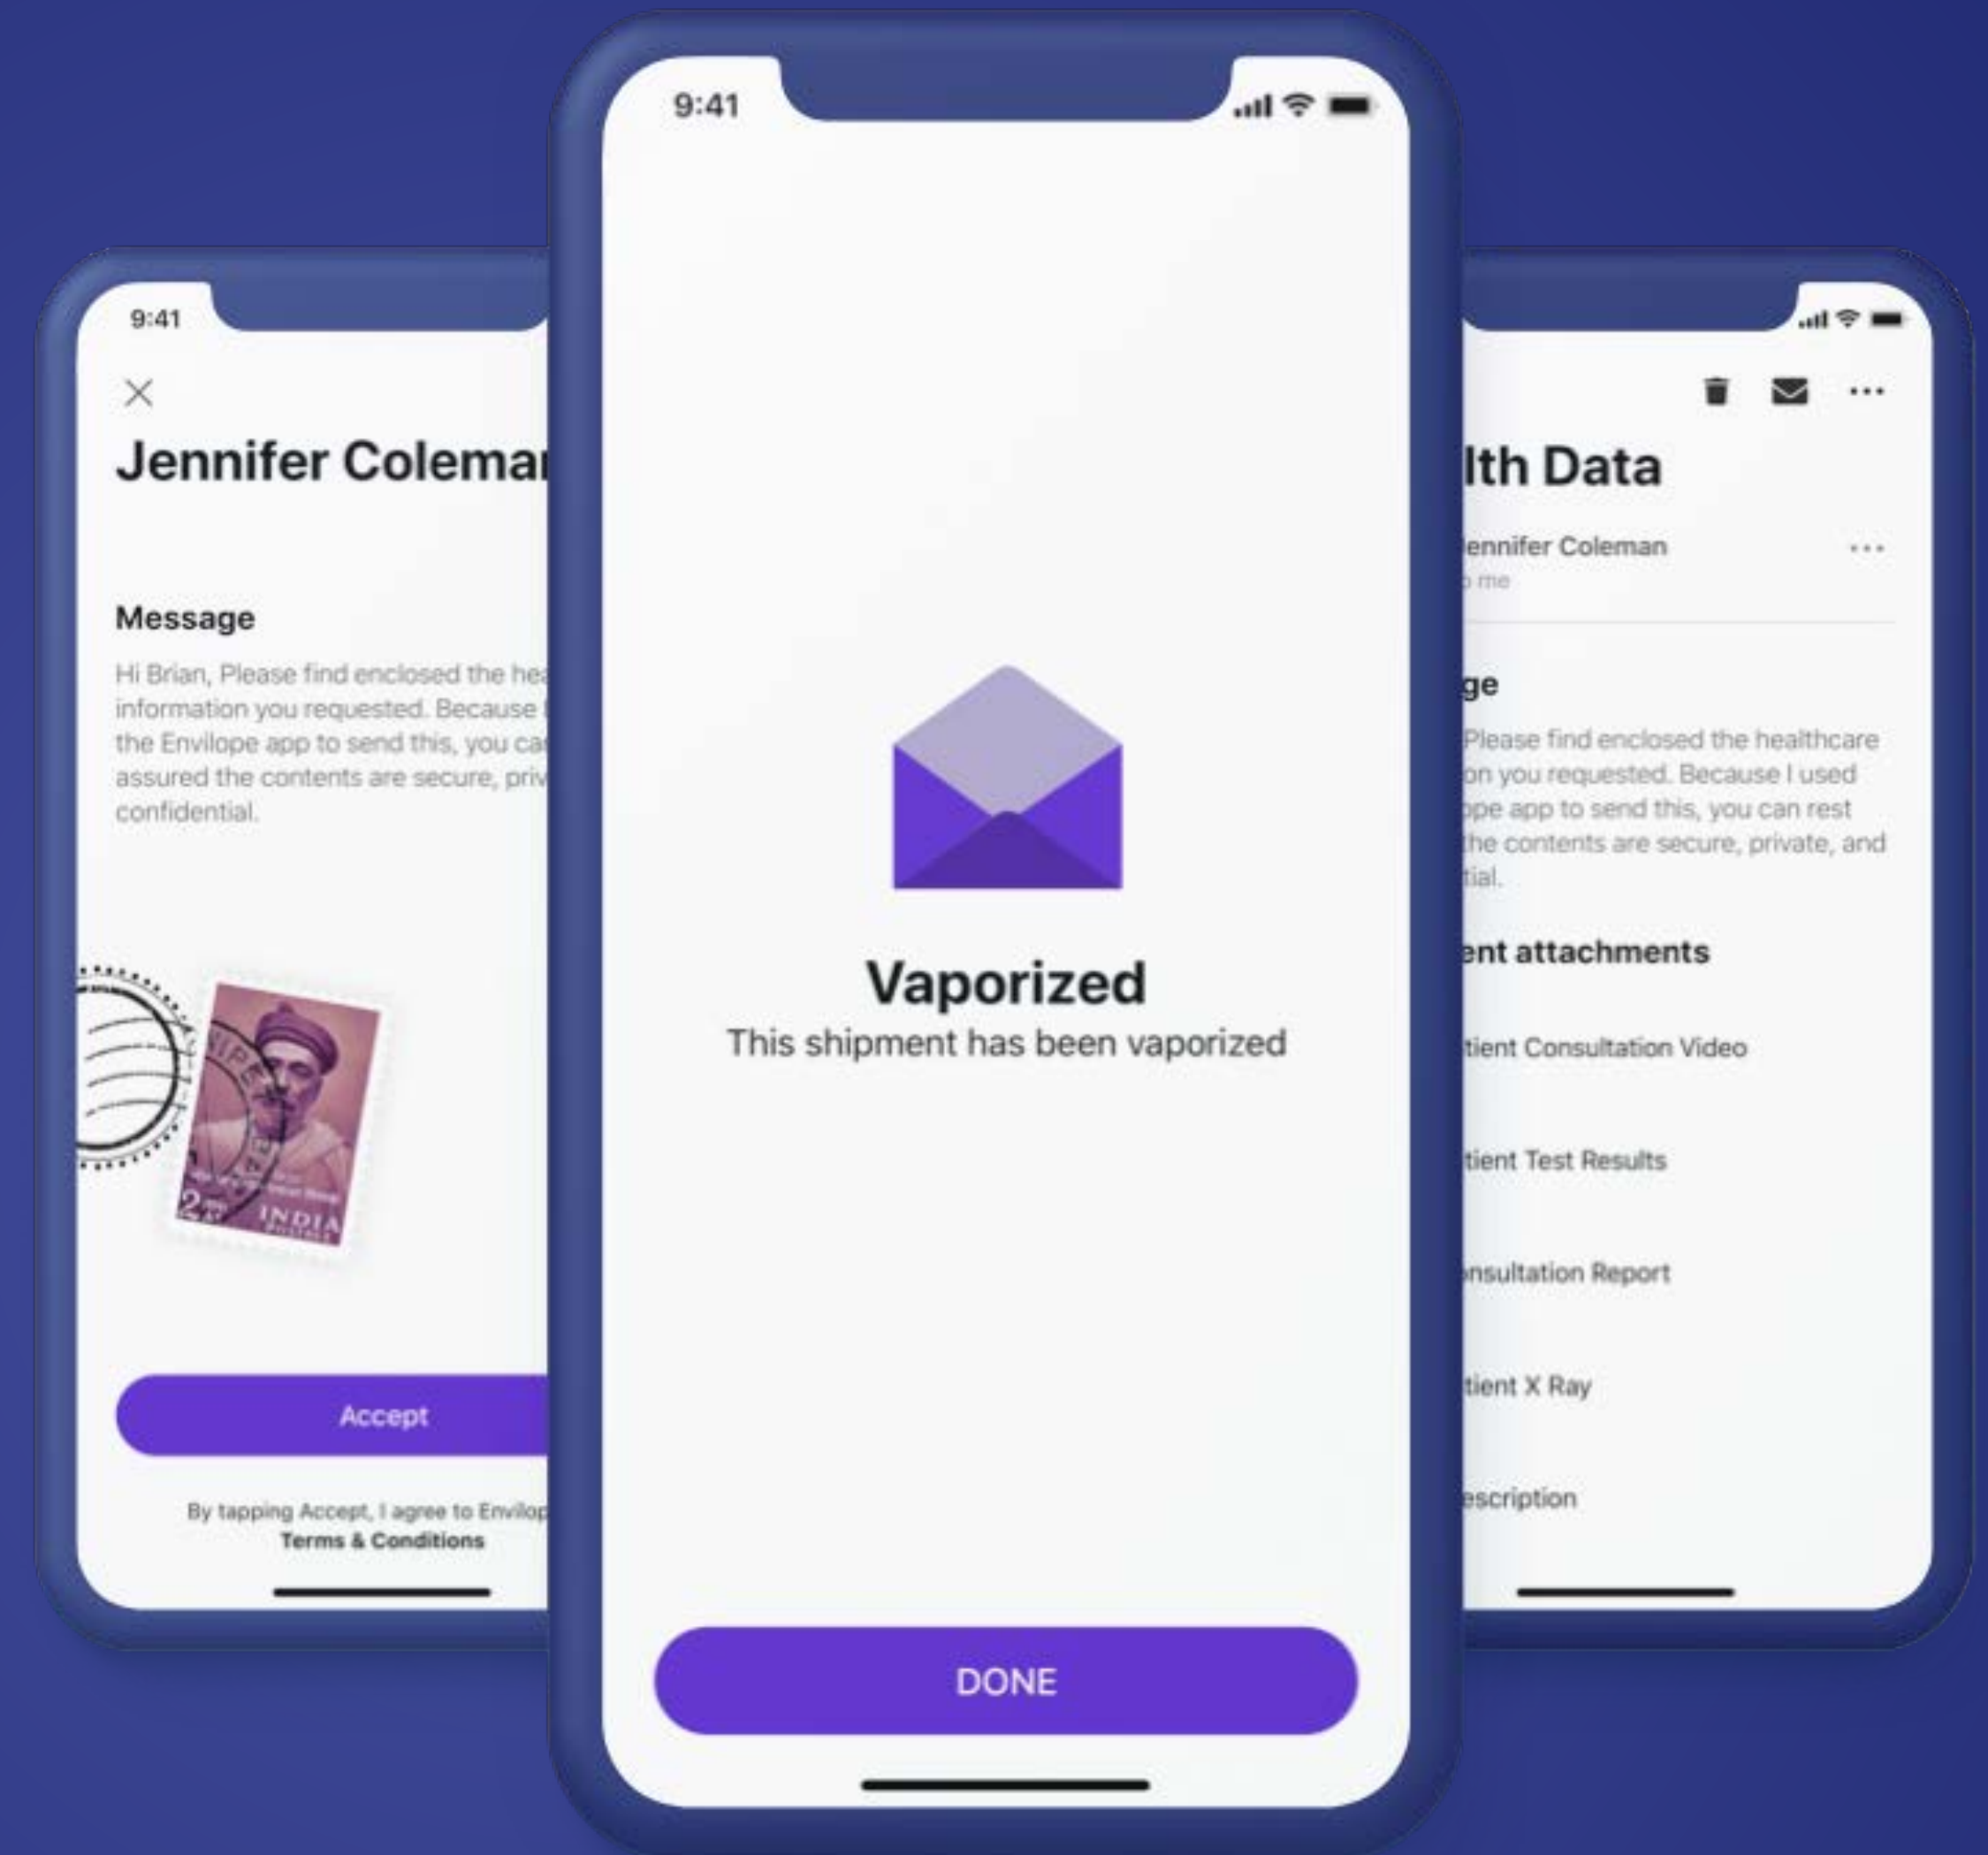

Send emails, media files, documents or any form of digital content...	
Ensure everything you sent remained absolutely private...	
Track the recipients - and vaporize the contents if you don't like how your content is shared...	

Lock files on a memory stick so no one but you and the recipient can open them...	
Have total control over your documents, emails, and other electronically sent files...	
Ensure your terms and conditions accepted at every opening...	

...in one **secure, trackable and totally controllable** virtual envelope?

Privacy, Control & Compliance.  
**Your way, right now.**

With Envelope, you can do all  
this... **and more.**

## What Is **Envilope**?

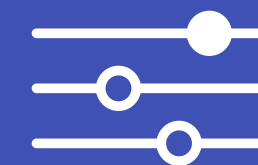

A fully working and government approved,  
cloud-based service

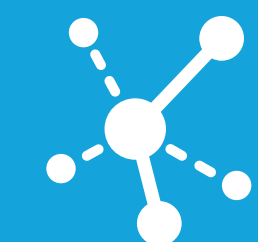

Ships, tracks, controls the sender's content.

Delivery, receipt, opening, viewing, control  
within a Virtual Envelope.

Recorded on Ethereum blockchain.

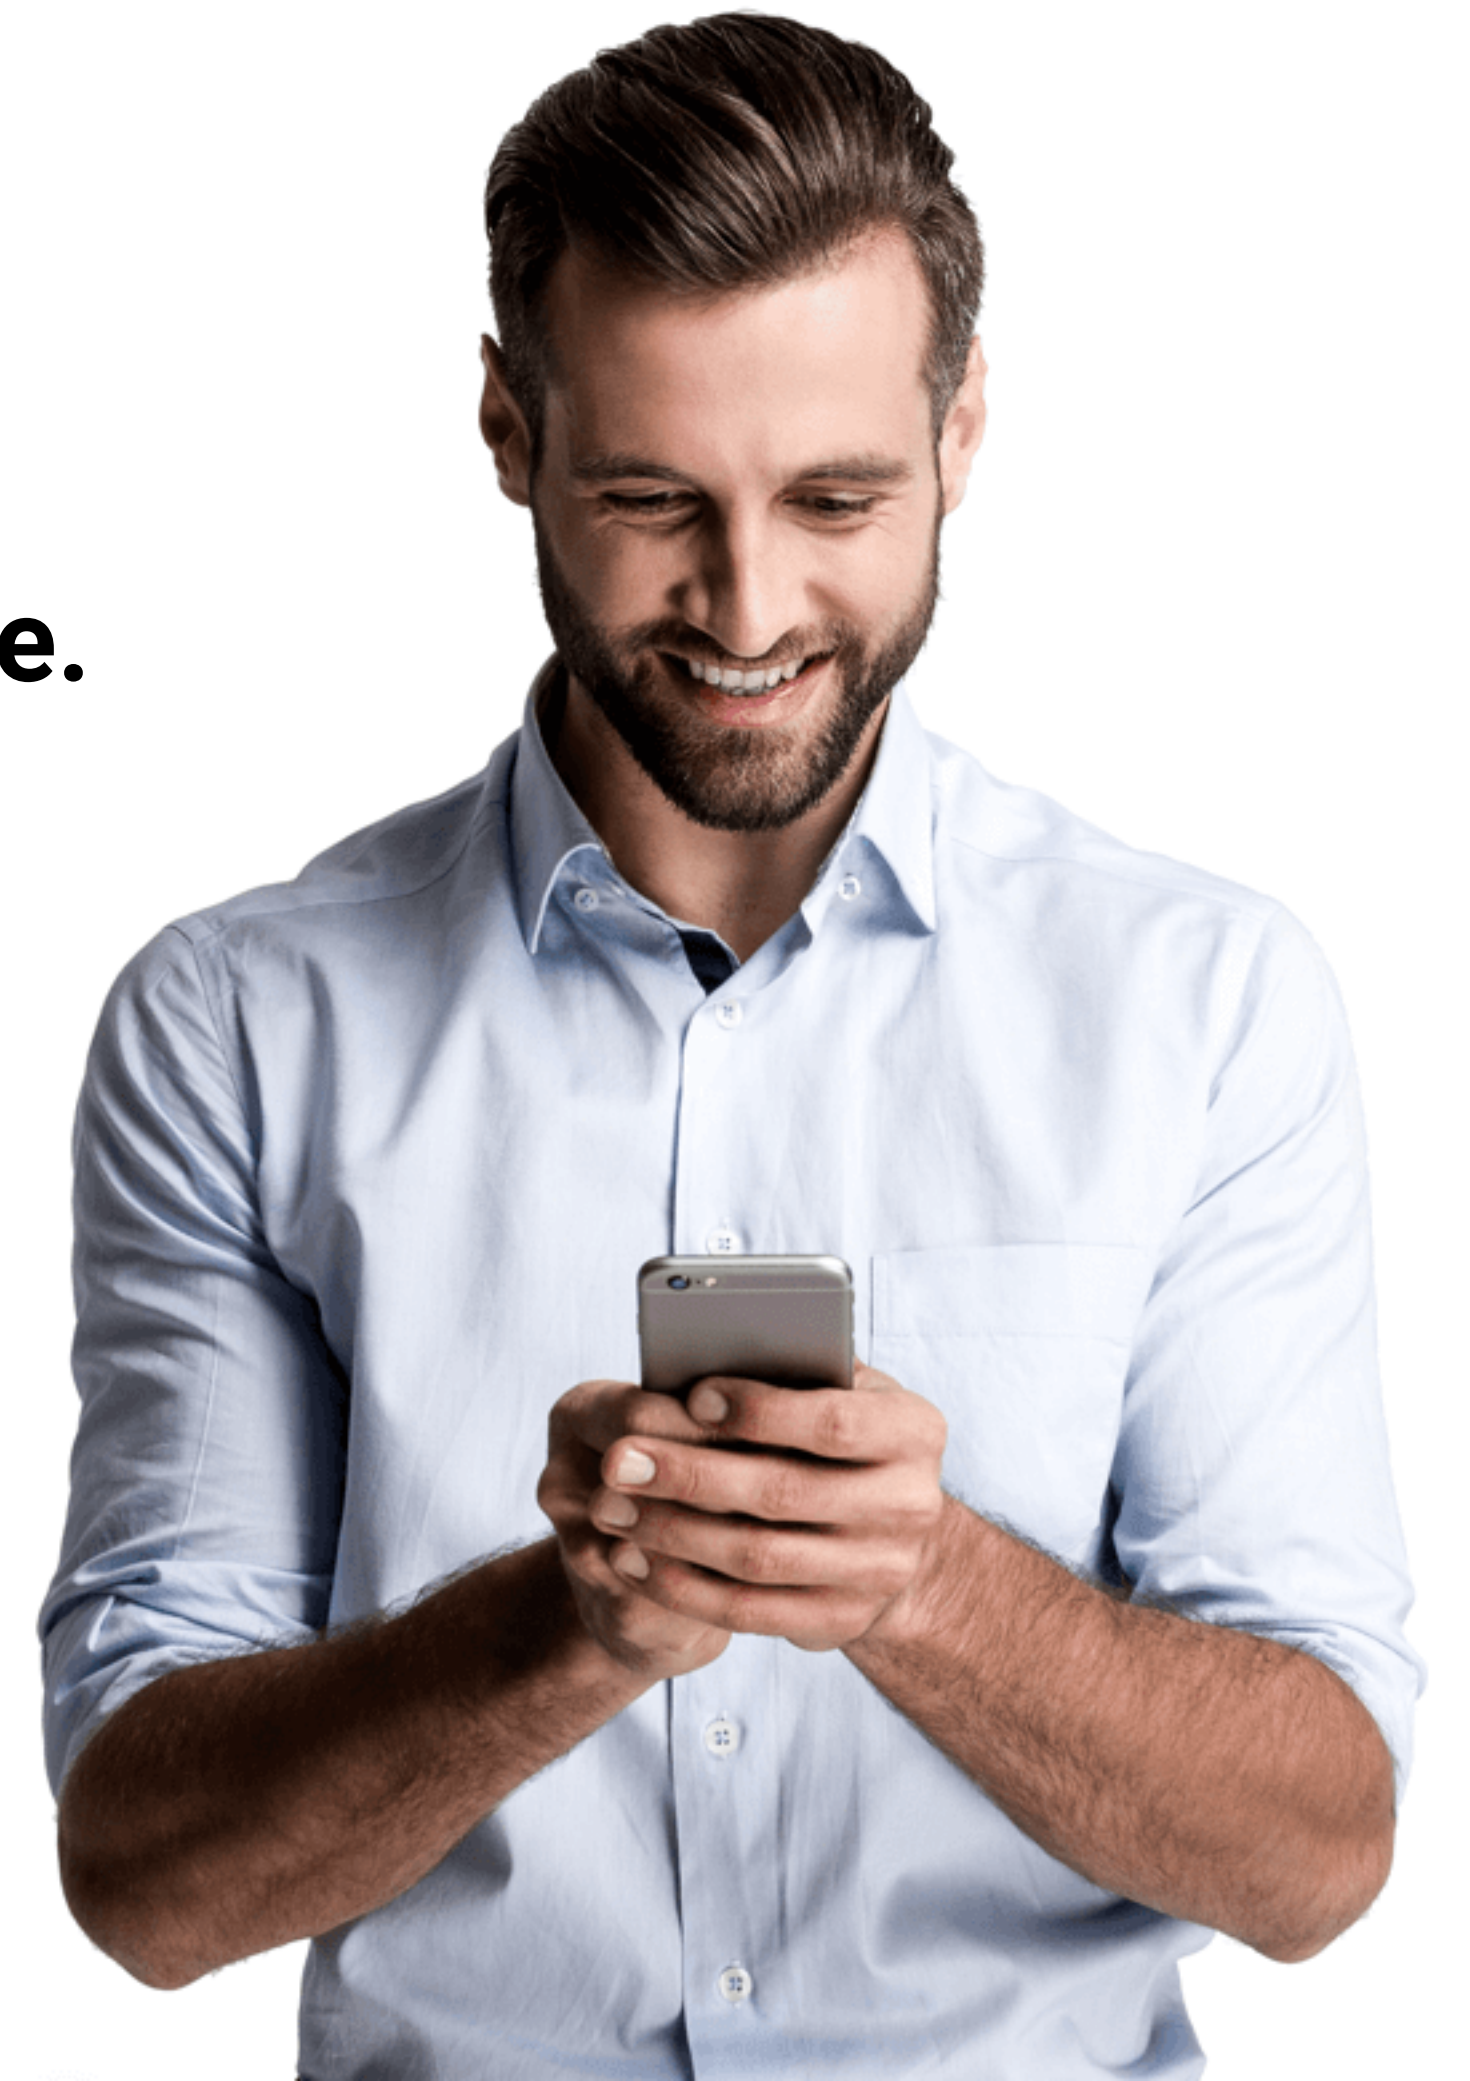

What goes in an Envelope? **Everything.**

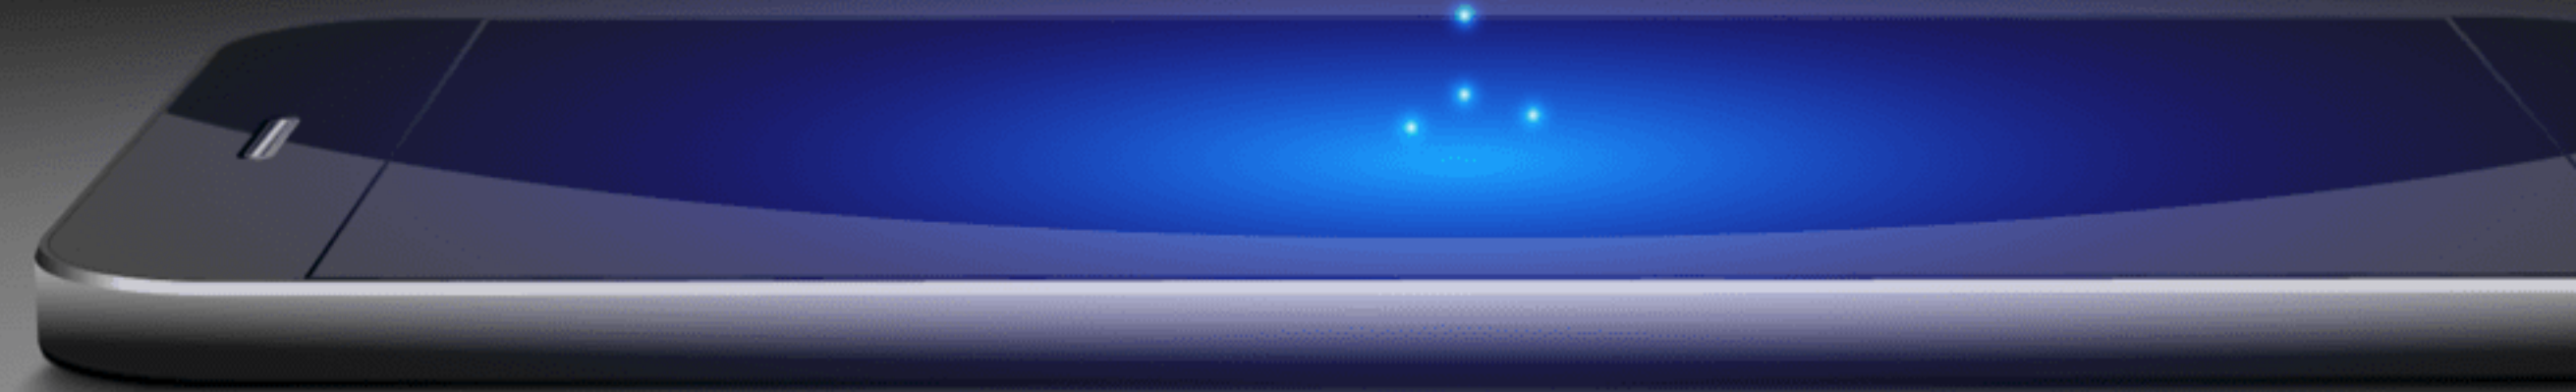

Who can use Envelope? **Everyone.**

Large potential market. **Ready for global launch.**

## **B2B**

Government (military-grade encryption), G-Cloud approved supplier, legal, financial, insurance, corporate and telecom, healthcare, entertainment

## **B2C**

100+ million potential users for entertainment, ticketing, sports, theater, music, television.

## Comparable doesn't equal competition

Envelope can be compared to four major industry sectors: secure messaging, secure email, digital signature, and data rooms.

The plan is to consolidate these sectors into ONE new product capable of performing all of these tasks – and adding many additional features.

# Current partnerships

in healthcare, telco, finance, government

## U.K. approved government supplier

35,000 U.K. public sector departments and all global suppliers and personnel.

Crown  
Commercial  
Service  
*Supplier*

## U.S. law enforcement

700 national offices with access to 2 million users

## U.S. Physician Groups

12,000 West Coast and 3,000 East Coast Providers  
(hospitals, pharmacies, affiliated doctors and  
their patients)

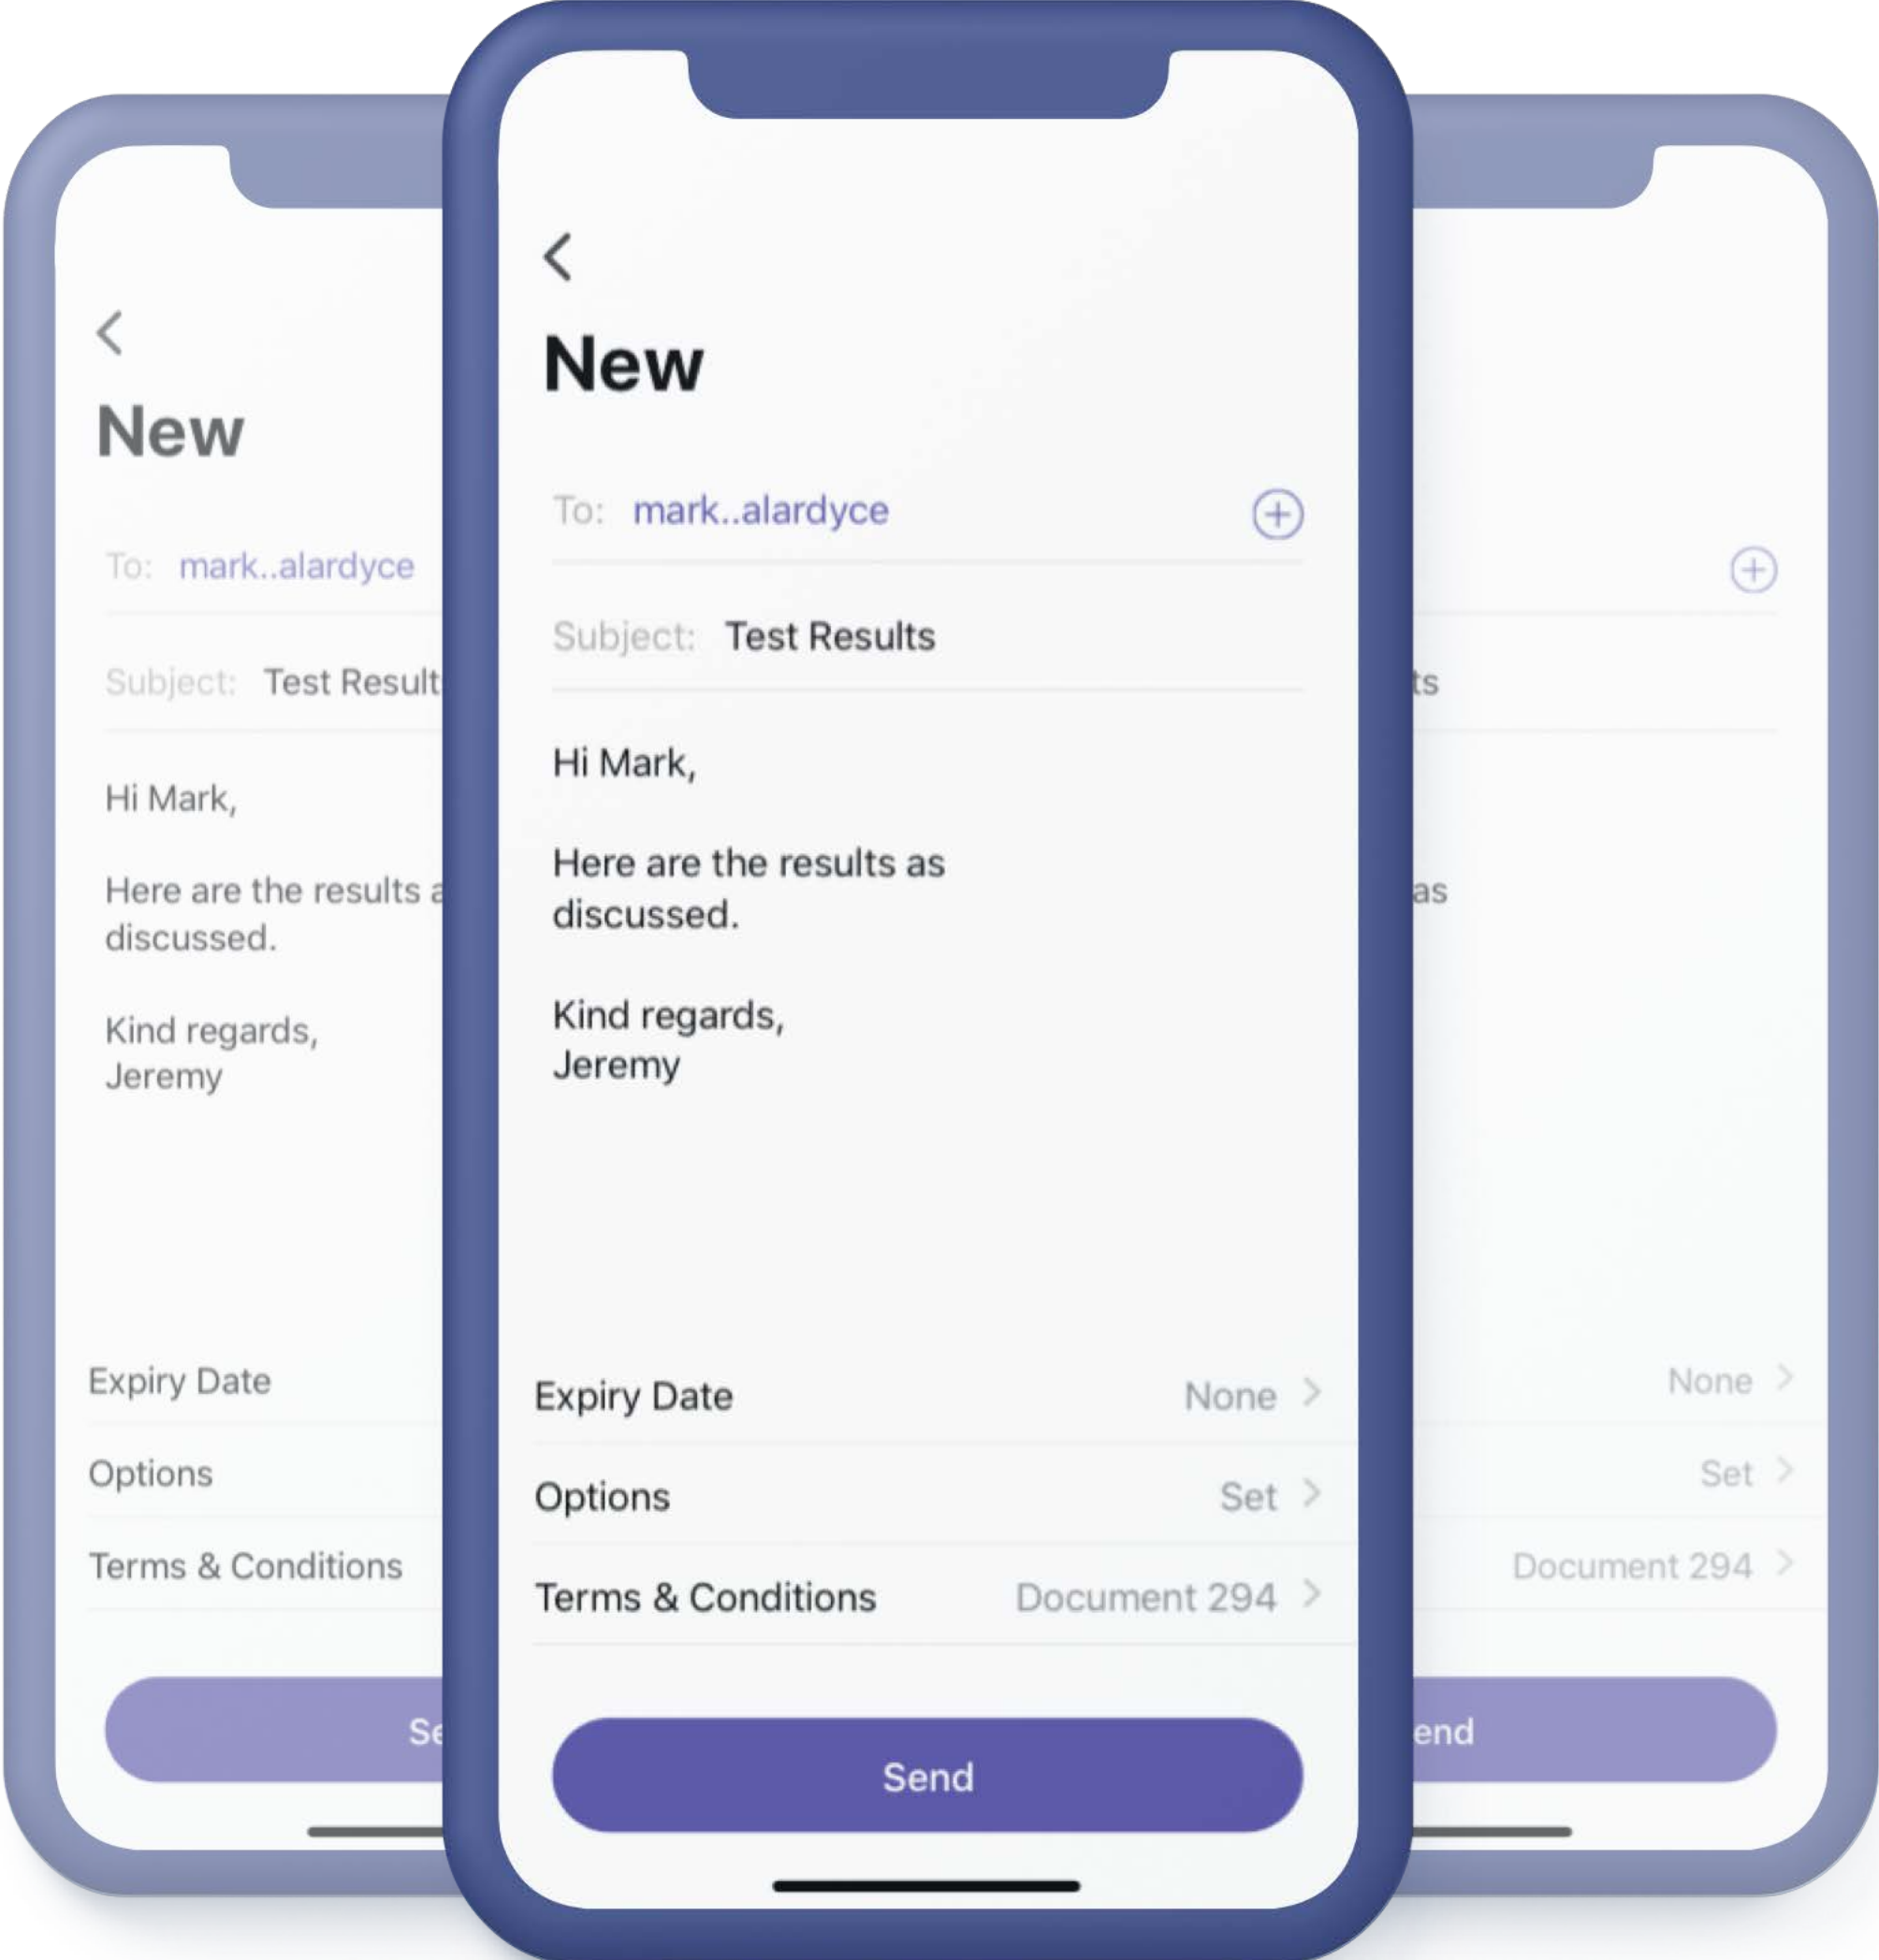

And this is **just the start.**

Envelope **already exists** as a fully working product

Technical Proof-of-Concept  
has already been completed  
on the **BlockStamping**  
mechanism

# Token Sale

A token sale to enable Envelope to take its digital, blockchain-based platform global.

- The Lock Token, Mining and Rewards
- Decentralized System
- Envelope API
- Decentralized Documents
- AI and EVA (Artificial Intelligence and Envelope Virtual Assistant)

Token sale funding will only **strengthen the team** and allow Envilope to fulfill its potential in a timely fashion

## **LOCK** will power the Envelope ecosystem

Funds raised will be used to program the blockchain integrations as well as for additional development and business expansion.

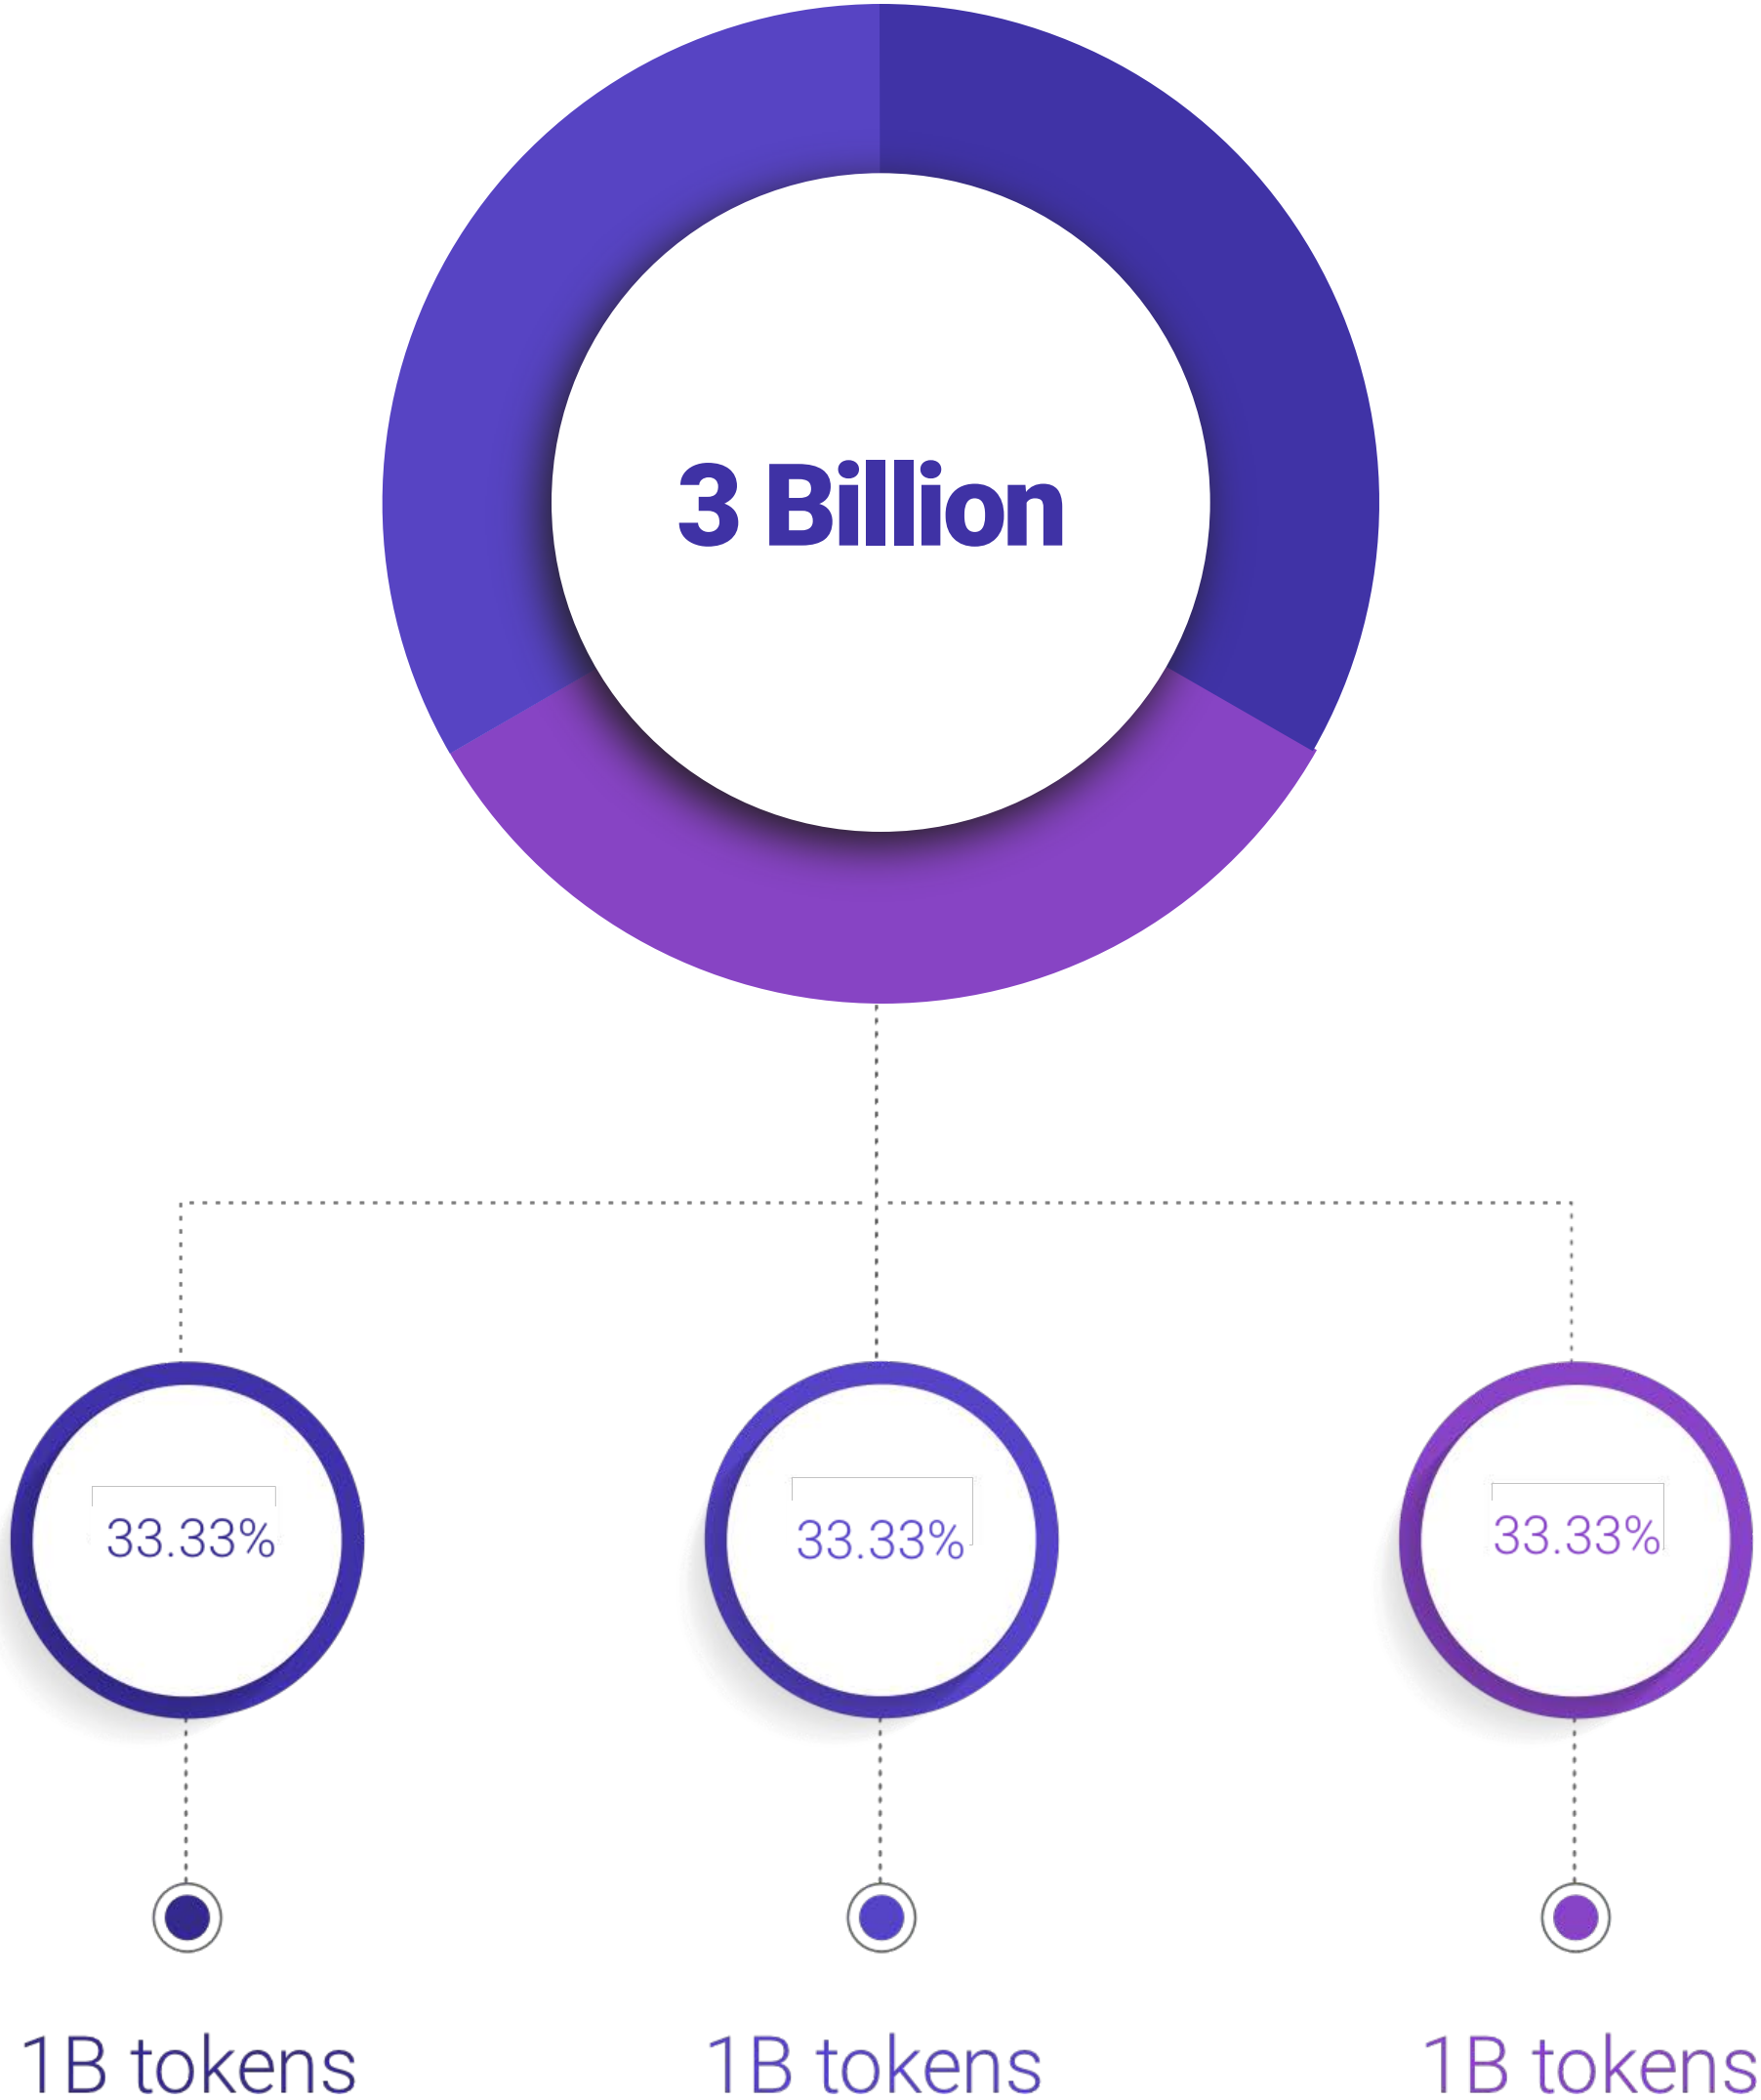

During our token sale,  
Enveloppe will sell ERC-20  
**LOCK** tokens.

**LOCK** tokens will have an ERC-20 smart contract that  
will be integrated with the existing Enveloppe system.

Initially, 3 billion tokens will be created, with 1 billion offered up for sale during the token sale.

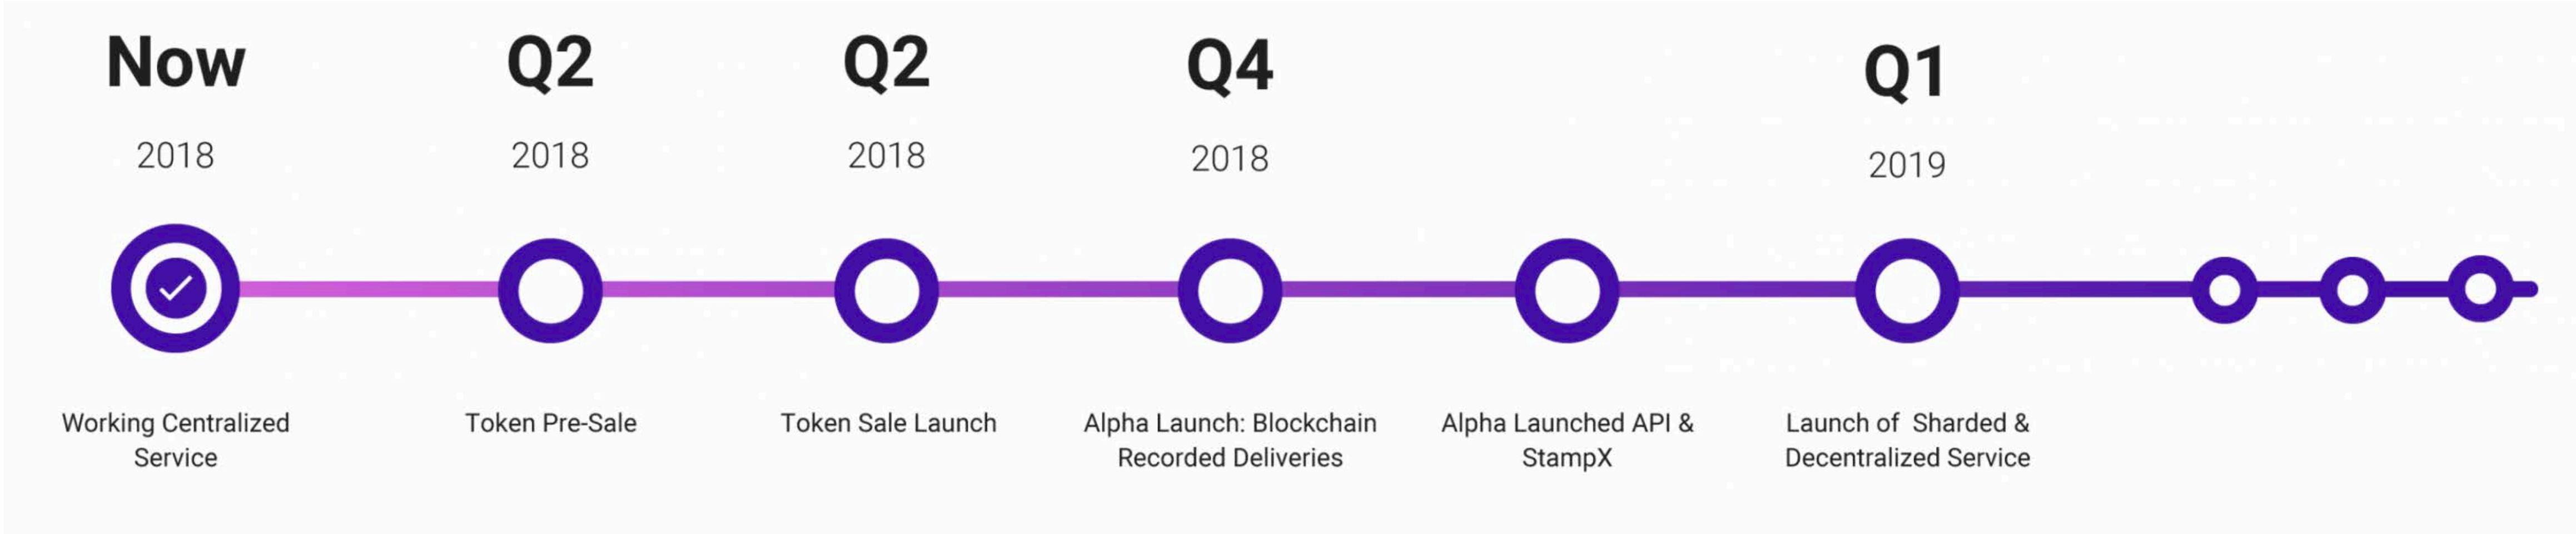

1 billion token will be allocated for distribution to incentivize user participation within the Envelope ecosystem. The remaining 1 billion token will be divided among the core team, developers, and non-technical service providers.

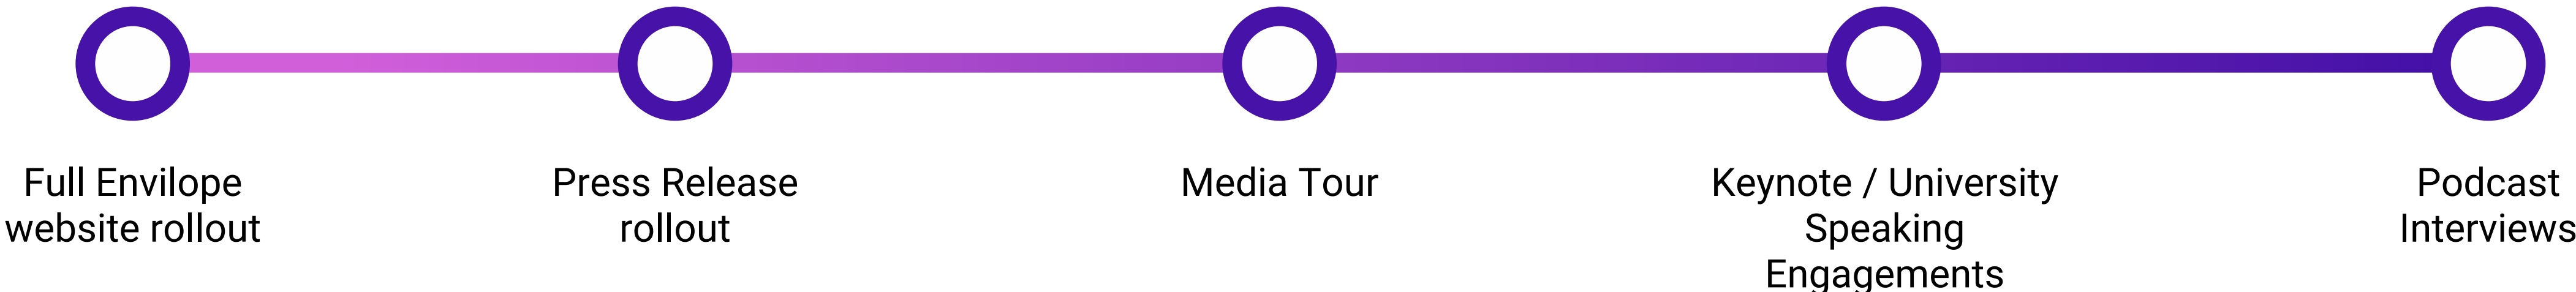

# Token Sale Roadmap

We have big plans. You can be a part of them.

# Post-Token Sale

# LOCK tokens

## Public Token Pre-Sale

<b>Tier 1</b>	May 31, 2018	100,000,000 <b>LOCK</b>	\$0.075 per token
<b>Tier 2</b>	June 14, 2018	100,000,000 <b>LOCK</b>	\$0.100 per token
<b>Tier 3</b>	June 28, 2018	100,000,000 <b>LOCK</b>	\$0.125 per token
<b>Tier 4</b>	July 12, 2018	100,000,000 <b>LOCK</b>	\$0.150 per token

## Public Token Sale

<b>Tier 5</b>	July 26, 2018	62,500,000 <b>LOCK</b>	\$0.175 per token
<b>Tier 6</b>	August 9, 2018	62,500,000 <b>LOCK</b>	\$0.200 per token
<b>Tier 7</b>	August 23, 2018	62,500,000 <b>LOCK</b>	\$0.225 per token
<b>Tier 8</b>	September 6, 2018	62,500,000 <b>LOCK</b>	\$0.250 per token
<b>Tier 9</b>	September 20, 2018	62,500,000 <b>LOCK</b>	\$0.275 per token
<b>Tier 10</b>	October 4, 2018	62,500,000 <b>LOCK</b>	\$0.300 per token
<b>Tier 11</b>	October 18, 2018	62,500,000 <b>LOCK</b>	\$0.325 per token
<b>Tier 12</b>	November 1, 2018	62,500,000 <b>LOCK</b>	\$0.350 per token

A highly **skilled and proven** team is in place to move the project forward

# Respected Executive Team

**Mark Allardyce**  
Founder & Group Chairman

**Jeremy Sims**  
Group Chief Technical Officer

**Colin Shave**  
Group Director of Business Development

# The Team

**Bill Bender**  
Director of US Government

**Tony Ferrier**  
Director of UK Government

**Dr Kerry Willis, MD**

**Paul Bender**  
Director of US Healthcare Sales

**Sam Barouch**  
US Healthcare President

**Scott Turnbull**  
Director of Media and Advertising

Additional team members bios are available in our white paper and on our website.

**Mark Holleran**

Group General Legal Counsel

**Darren Allardyce**

Group Chief Operating Officer

**Donna Zerbo**

US Legal Counsel and President

**Mel Storer**

Group Chief Financial Officer

**Peter Quinn**

Vice President Finance USA

**Lord Merlin Erroll**

Independent Crossbench Peer,  
House of Lords

**Sir Eric Peacock**

International Business  
Development

**William Thompson**

Token Sale & Blockchain Advisor

**Dr Chris Steele M.B.E**

TV Doctor

Additional team members bios are available in our white paper and on our website.

**David Briody**

International Receivables  
Management

**Chris Newman**

Security Executive

**Daniel James**

Recruitment

**Jeff Barber**

Corporate Finance

**Natalie James**

Token Sale & Blockchain Advisor

**Phil Cordey**

IT Security

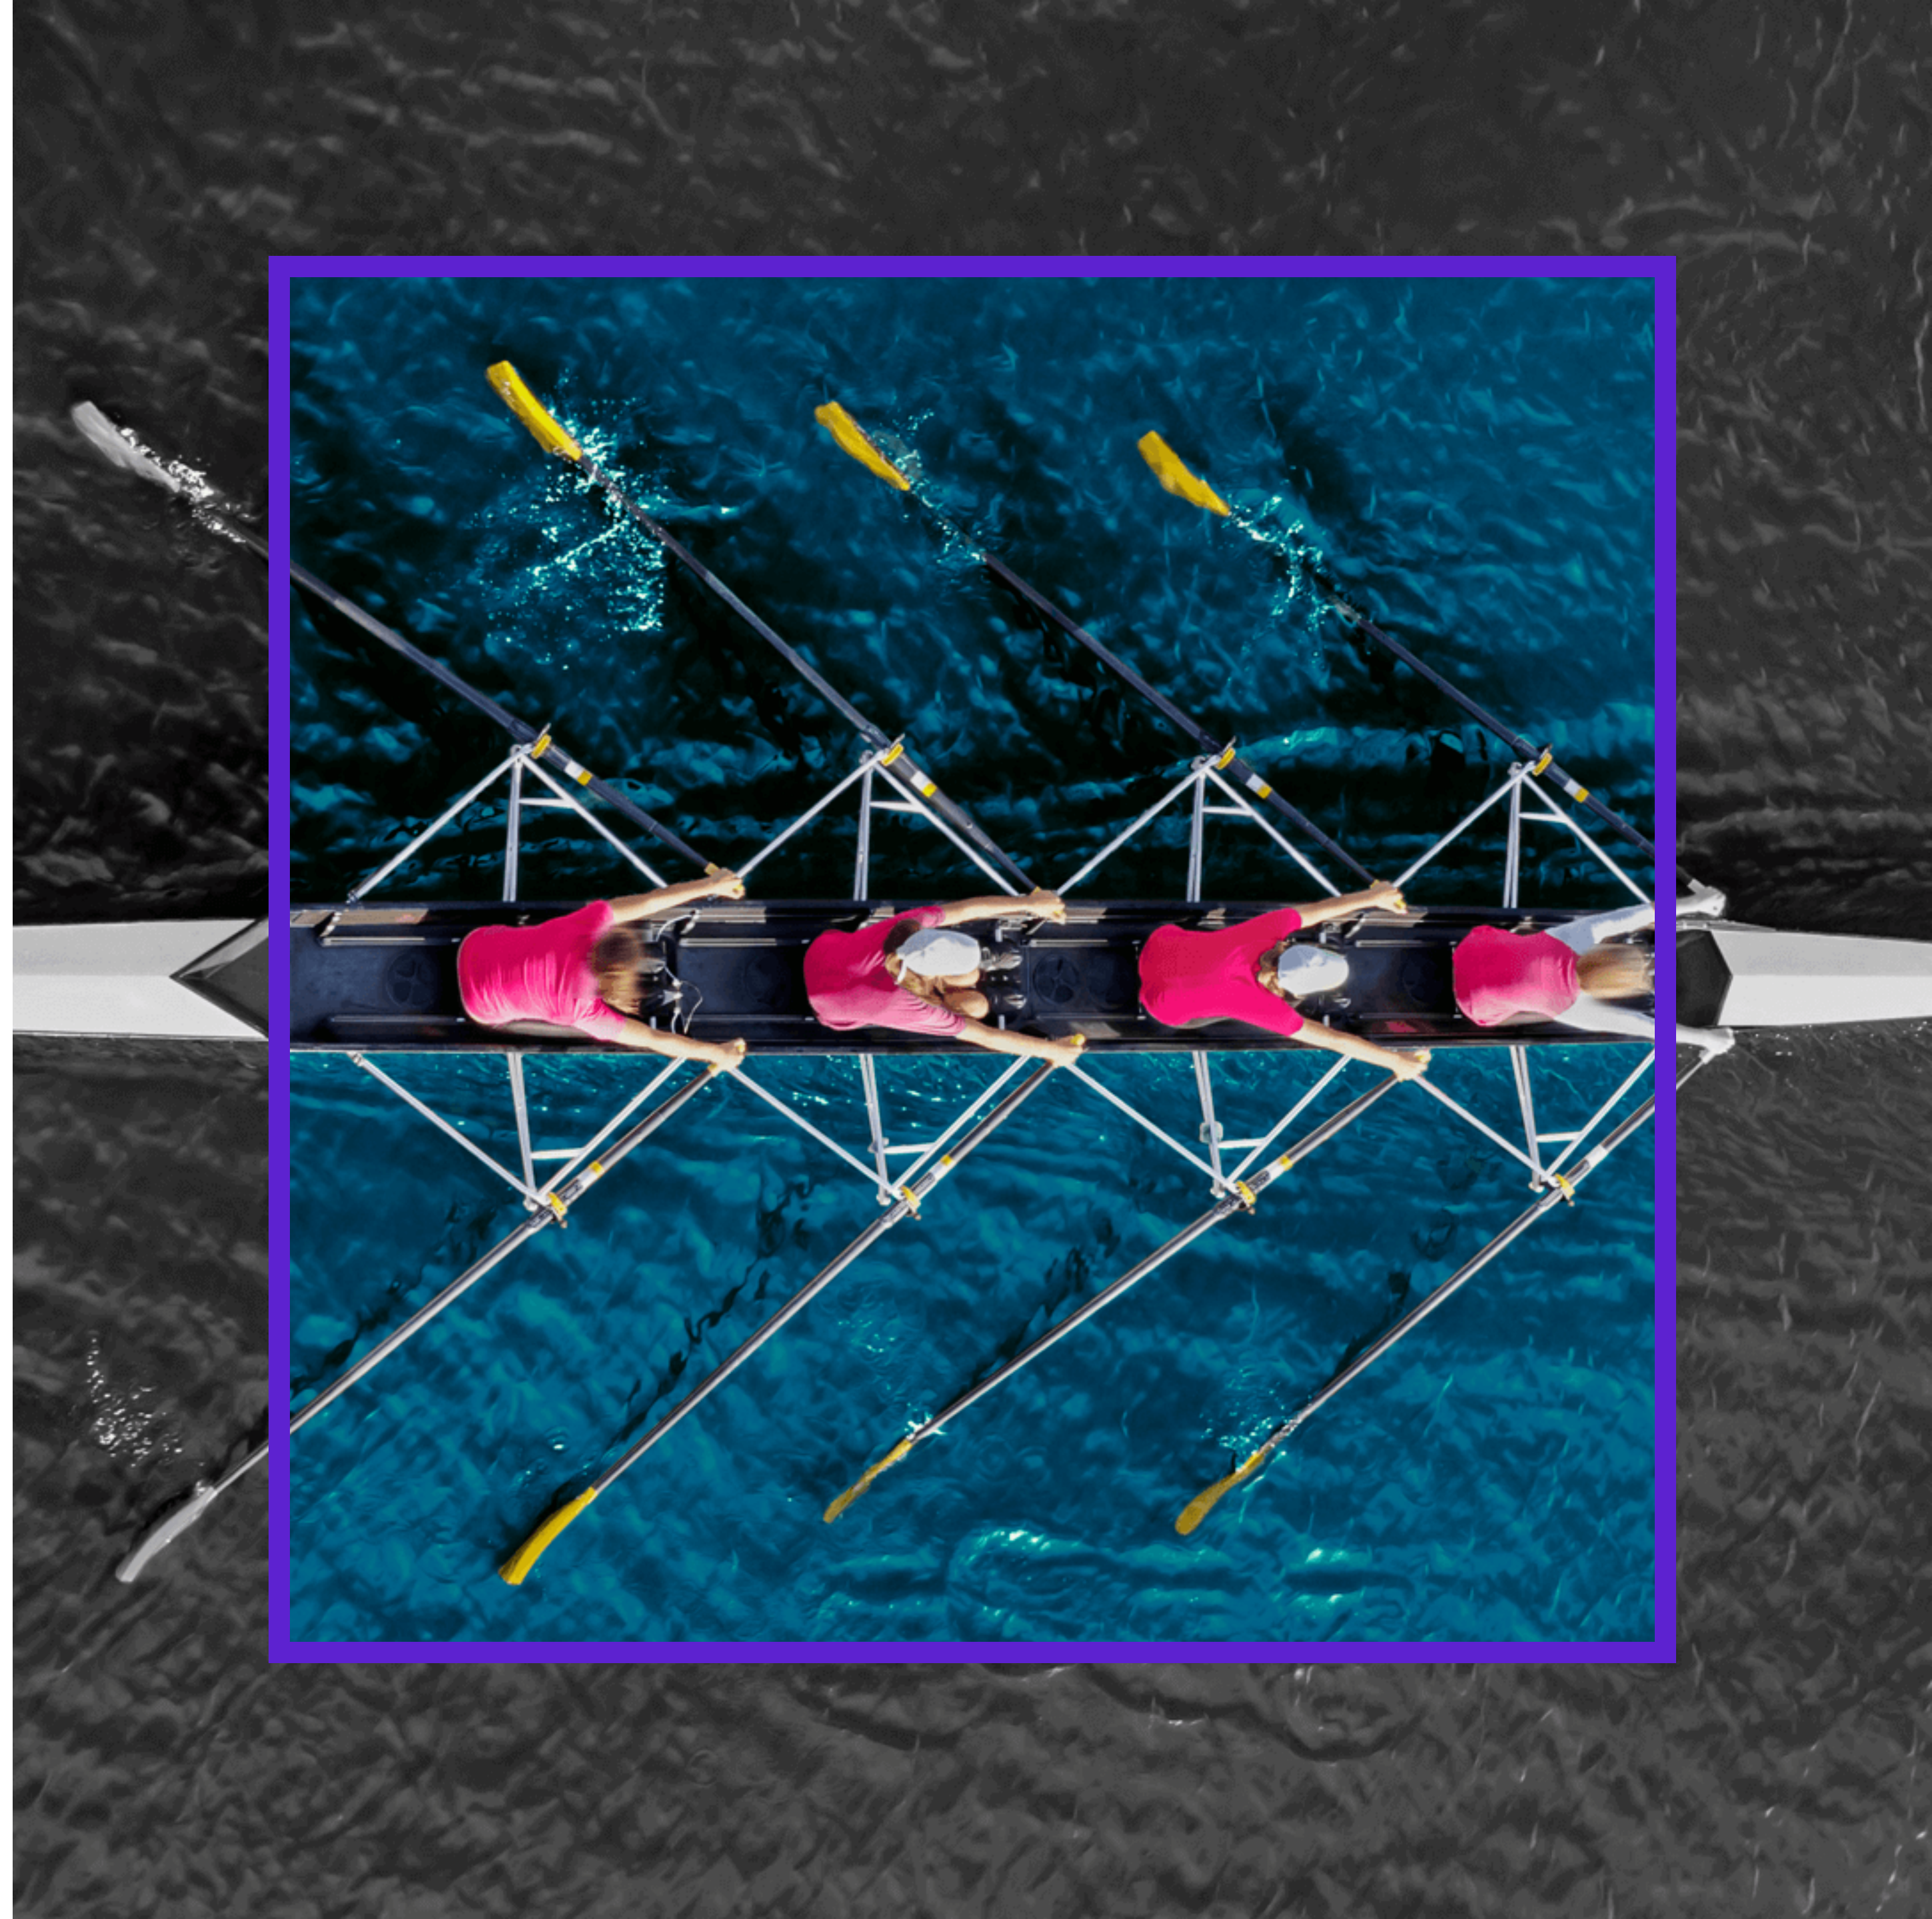

**Dr Loven Ganeswaren**

Dentistry

Additional team members bios are available in our white paper and on our website.

# Ready to Move Forward, **Together.**

With your participation and support, we can make  
Enviolo the new standard for digital privacy, security,  
and control.

They say privacy is a thing of  
the past. We say it's the  
**future.**

**Are you ready to be part of that future - now?**
